Subject: TIME-SENSITIVE: AP Request for Photo Imagery From the Site
Date: Tuesday, November 20, 2018 1:45:57 PM

All: Keith Ridler from AP-Boise is seeking any photo imagery from the site to run with his story. He is happy to credit the generator/owner of the image.

My OSC, Stephen Ball has just spoken with the Incident Commander at the scene to get his take. The IC says he would prefer that all requests for imagery from the scene be handled through Ysabel as the Company's PR representative for the incident.

Ysabel: Can you please weigh in here so we can establish a policy/practice for the duration of the recovery phase?
